

# Schedule of Estimated Legal Fees

The following schedule is current as of 2012. We hope this fee schedule helps to take some – if not all – of the stress out of pricing your Internet legal needs.

Each client project is unique, and may vary from this schedule, so it is provided for you only as a guideline. After speaking about your specific needs during your confidential initial telephone consultation, we will be able to provide you with a firm quote.

Prices quoted are in U.S. Dollars and are for a nontransferable license to use the documents in a client's business. The law firm retains the copyrights for these documents.

## Professional Website Legal Diagnostic

**\$995 to \$1,750 per diagnostic. Diagnostic fee is based upon the size and complexity of the website to be analyzed. If customized website legal documents are prepared by the law firm per a diagnostic, you will receive credit of 50% of the diagnostic fee to be applied against the cost of the website legal documents.**

## Customized Website Legal Documents

**\$500 to \$2,500 per document. Total cost for most websites ranges from \$7,750 to \$20,000 depending upon website subject matter and legal issues involved.**
